artificial intelligence, an expert system is a computer system that emulates the decision-making ability of a human expert. Expert systems are designed to solve complex problems by reasoning through bodies of knowledge, represented mainly as if-then rules rather than through conventional procedural code. The first expert systems were created in the 1970s and then proliferated in the 1980s. Expert system - Wikipedia (2)

Unless the court directs otherwise, the party who instructed the expert or, in the case of the single joint expert, the party who was responsible for instructing the expert, must send to the expert a copy of the court's final order, any transcript or written record of the court's decision, and its reasons for reaching its

decision, within 10 business days from the date when the party ... PART 25 - EXPERTS AND ASSESSORS The Making of an Expert Engineer book.
